

Course Details

FA11A First Aid Annual Refresher Course

A programme of training designed as a 'basic skills refresher'. Frequently in the three years between courses 'skill fade' takes place and this course is designed to enable students to practice basic life support skills. It is also a useful course for anyone wishing to gain simple life support skills such as dealing with unconscious patients and delivering CPR

This course does not replace the three yearly First Aid at Work refresher course

Students will receive a certificate of attendance

Short Day Course 3 hours

January 2010
